From the Richmond Register:

The Slave Insurrection gained fresh in this letter of a "Virginia Soldier," it is very natural and just. Our soldiers wish to remain law-abiding citizens, if possible; and rather than have the law to be broken and violations that no other troops in modern times are expected to endure. But they may be a hindrance to Confederacy soldiers are not angels. It is, indeed, high time that Congress should make this new provision for enabling the Government to keep its armies in force.
